## DESIGN SKILLS

- Game Design Documents
- Game Mechanic Design
- Level Design
- Systems Design
- UI/UX Design
- Prototyping
- Game Balancing

## ENGINE SKILLS

- Unreal Engine 4/5
- Unity Engine

## TECHNICAL SKILLS

- Blueprint/Visual Scripting
- C#
- C++
- Python
- HTML
- CSS

## SOFT SKILLS

- Communication
- Teamworking
- Problem-Solving
- Critical Thinking
- Adaptability
- Pitch & Presentation
- Time Management

## OBJECTIVE

Currently studying MSc in Games Design at Staffordshire University. Looking to apply for Game Designer or Game Producer roles. I have good experience with development within Unity and Unreal along with their respective languages. Additionally, I have led small and large teams through the concept stage to the final completion stage.

## EDUCATION

**MSc, Games Design**  
**Staffordshire University**

**SEP 2023 – SEP 2024**

- Developed an Action-Adventure game with exploration, puzzles, and combat.
- Researched and authored a paper on gamification's educational applications.
- Developed a DOOM and Duke Nukem local coop crossover prototype through Unreal Engine utilizing both visual scripting and C++.
- Developed multiple short games that focus on game feel and polish.

**BSc (Hons), Games Technology**  
**University of the West of England**

**SEP 2020 – JUN 2023**

- Developed games in C++, C#, and Python.
- Created 3D environments and game assets with Autodesk Maya.
- Used the Unity engine to create multiple short games and various gameplay features.
- Participated in multiple game jam projects.
- Utilized the Unreal Engine to create a dungeon level experience.
- Recreated DOOM with both blueprinting and C++ code.
- Worked on a large team game project spanning multiple months, involving over 40 students.
- Produced multiple short games whilst managing a small team.

## EXPERIENCE

**Retail Associate, TK Maxx**

**SEP 2019 – AUG 2021**

- Worked in a large team to delegate tasks and manage the shop floor.
- Provided clear communication and quick assistance during customer service.
- Managed new inventory, including unpacking, and organizing to be ready and sent out to the shop floor.
